Overview of the Aquatic Industry:-

The aquatic industry is experiencing an extreme shortage of professional swimming teachers, and coaches. This is due to the lack knowledge and understanding about the stability income and the career path as swim teachers or coaches.

The demand of swimming classes is high due to the benefit or water exercise and swimming as fitness and survival skills.

However, we need to train swim teachers and coaches to be well prepared in this aquatic industry.

Objectives of Swim Teacher Trainee Programmes

The objective of the 4 months program is to develop trainee to be professional swim teachers and coaches.

1. To prepare swim teacher to meet the varying and challenging needs of the job and organization.
2. To provide knowledge and skills to new swim teacher with zero knowledge in teaching and swimming and to help them to perform.
3. Mentoring and coaching the new swim teachers to perform in aquatic industry
4. To educate new swim teachers on how to be marketable in the industry

Benefits of Swim Teacher Trainee Program

To develop professional Training is a significant tool for employee development. Training has assumed great importance because of exceptional rate of change in the internal and external organizational environment. The importance/benefits of trained personnel towards organizational development are as follows-

- a. Trained employees do not require tight control and supervision as they are well aware of how to perform a job.
- b. Trained employees can show higher performance by making optimum and best utilization of the materials, tools, equipments and other resources provided to them.
- c. Trained employees minimize wastages of resources in the organization and work both efficiently and effectively.
- d. Training makes employees more committed to an organization as the employees are provided with growth, advancement and learning opportunities.
- e. Training develops a line of proficient and skilled managers as it prepares employees for complex and higher level tasks.
- f. Trained employees adjust to the job better and there are fewer rates of absenteeism and turnover.
- g. Trained employees produce quality and quantity output.
- h. Trained employees enable the organization to face competition from rival firms.
- i. Trained employees can respond and adapt to the changing technology well.
- j. Trained employees become more proficient and, thus, their earning potential increase.
