COMPANY BACKGROUND

Jack-In Pile (M) Sdn Bhd was formed in 2006 to provide environmentally friendly and efficient piling system. We specialize in hydraulic jack-in system which is practically free from noise, vibration and pollution.

Currently, we own more than 30 units of jack-in machines with various capacity ranging from 250 to 1000 tonnes. We have a team of professional and highly qualified technical personnel to undertake all types of piling project of various sizes. The combination of men and machines gives us the added advantages in terms of productivity, delivery and efficiency.

Jack-In Pile (M) Sdn Bhd achieved the ISO 9001:2008 certification in July, 2009 for Quality Management System and also registered with the Construction Industry Development Board of Malaysia. We are also the recipient of the Malaysia's Top 100 Outstanding SMEs Golden Bull Award in 2009 and 2010.

Jack-In Pile (M) Sdn Bhd have good track record and experience in speedy completion of projects. Since 2006, we have completed more than 500 projects of various sizes in the residential, commercial and infrastructural sectors.

We are also working closely with our related company, Chuan Un Chye (M) Sdn Bhd which is based in Pulau Pinang. The company specializes in driven pile system, a traditional yet speedy method best used for low rise projects and for sites with tight spaces.

Jack-In Pile (M) Sdn Bhd and Chuan Un Chye (M) Sdn Bhd shares common shareholders and directors, allowing seamless cooperation and sharing of expertise and resources.

OUR OBJECTIVES

- Total Customer Satisfaction
- Maximization of Resources
- Minimization of Wastage
- Completion on Schedule
- Continuous Quality Management

With our dedicated workforce and our highly experienced management and technical support, we are well prepared to meet our own objectives and the industry's requirements for innovative, efficient, cost-effective, and environmentally friendly piling.

Towards achieving our objectives and with the full support and technical backing of the manufacturer of our hydraulic jack-in machines in China, we had and continuously worked closely with the manufacturer to incorporate the latest technical advancement to our machines in order in to maximize its' productivity and efficiency.

Furthermore, we also constantly strive to further improve our management, technical and site staff by having a strict monitoring system, in-house training, attendances at seminars and insisting on constant feedbacks from our customers and our staff.
