

Job Summary

We are looking for R&D Intern to join our flavour development team. In this role, you will assist creative and technical teams in the formulation, testing, and application of flavours across a wide range of food and beverage products. This internship provides hands-on experience in flavour innovation, sensory analysis, and product development under the guidance of industry experts.

Key Responsibilities

- Assist the R&D team with flavour blending, formulation trials, and product testing.
- Support the sampling team with sample preparation, packaging, shipment coordination, stock tracking, and proper waste disposal.
- Participate in flavour evaluation sessions.
- Apply flavours in finished food product prototypes.
- Provide general support to ongoing lab activities as needed.

Requirements

- Currently pursuing a Diploma or Bachelor's degree in **Food Science, Food Technology, Nutrition, Industrial Chemistry**, or a related field.
- Proficient in both English and the local language.
- Basic computer skills and familiarity with tools like Microsoft Office.
- Willingness to work in a lab setting and handle flavour ingredients and food-grade chemicals.
